

Location	Machine Model	Tonnage	Pack	IU	Screw Dia.	Controller	Other Options
UK	JU5500V/3450	550t	Europe Pack	3450	80B	i3015	APZ0302 - Wear resistant plasticizing unit (< 20%GF Suitable, 3 zones screw) (type b) JCA1400 - Increase of max mould height by 200mm (increase of mould opening stroke) AFG1110 - Colour masterbatch machine signal interface AFF0311 - Ejector back safety switch interface (4 needle Harting connector) Special mech prep for retrofit hydraulic cascade 8 zones in HTIG APZ0902 GP wear-resistant plasticizing units (≤20%GF bearable, medium mixing) (type B) ABA4501 LUBE lubricating grease for clamping toggle in clarification APZ1102 Specialized plasticizing units for ≤30%GF shell industry (medium mixing) (type B) ABF0200 - KEBA i2000 15" Touch screen
UK	ZE2300V/1100	230t	Europe Pack	1100	55B	Sigmathek	EFG1210 - Interface for dosing unit EFF0310 - Electrical interface (A) of mould ejector back signal ECC1104 - Enlarge the moving platen center hole ECQ0100 - Linear guide rail is optional for mould closing unit (with lifting ring for lifting the whole machine) EPZ0902 - GP wear resistant plasticizing units (<20%GF bearable, medium mixing) (type b)
UK	ZE900 III	90t	Europe Pack	210	32B	Sigmathek	EFG1210 - Interface for dosing unit EFF0310 - Electrical interface (A) of mould ejector back signal ECC1104 - Enlarge the moving platen center hole ECQ0100 - Linear guide rail is optional for mould closing unit (with lifting ring for lifting the whole machine) EPZ0902 - GP wear resistant plasticizing units (<20%GF bearable, medium mixing) (type b)
UK	ZE1200 III	120t	Europe Pack	430	32B	Sigmathek	AFG1110 - Colour masterbatch machine signal interface EFF0310 - Mould ejector plate return confirmation switch ECC2100 - Location ring diameter ECQ0100 - Linear guide rail for injection unit
